

We use the ETC FAQ with the following adjustments

PSYCHIC PHASE, PSYKERS AND PSYCHIC SPELLS

5. The number of psychic powers a psyker can use is not limited to its mastery level.

A psyker can attempt to manifest a psychic power as long as there are warp charges left and isn't attempting to manifest the same power twice.

8&9. GoI & Levitation can be used while pinned or gone to ground.

GoI & Levitation can't be used while falling back.

21. When you successfully manifest a (focused) witchfire power that does not have a shooting profile, immediately resolve the effect instead.

SHOOTING PHASE

8. Sternguard: All models with special issue ammunition in a unit must use the same profile.

RUINS

8. Flyer, FMC, jump, jet, jetbike or skimmer can choose which level they hit with a template weapon.

GENERAL
